SM SOLAR BATTERY: Constant, Safe POWER for YOU

VRLA AGM SEALED LEAD ACID Battery

SM12-200

SM SOLAR SM series AGM batteries are designed to have a large amount of stored current discharged between charging sessions, heavy non-porous battery plates to withstand repeated major discharging and charging cycle. The SM VRLA AGM battery uses a different chemistry for the plates active paste material, and a slightly stronger electrolyte than normal battery electrolyte, thus the SM range features higher cyclic life with 10 years of float life when compared to the standard Duration range.

12V

200Ah
